

## Sponsorship and Exhibit Opportunities 12<sup>th</sup> Annual International FES Society Conference

The International Functional Electrical Stimulation Society, Inc.<sup>™</sup> (IFESS) was established to promote the research, application, and understanding of electrical stimulation as it is utilized in the field of medicine through meetings, tutorials, publications, and the exchange of information.

IFESS is directly associated with the International Neuromodulation Society (INS) combining their strengths internationally. In 1999 IFESS and INS officially became sister societies, sharing sessions at every Annual Conference to help accomplish their mutual goals.

One of the major conduits by which the IFESS carries out its mission is by providing a high quality educational program at every Annual Conference. This year, Randy Betz and Brian Smith of the Shriners Hospitals for Children, a world leader in treating children with orthopaedic and neuromuscular disabilities, are hosting the meeting November 10-14, 2007, in Philadelphia, Pennsylvania, USA.

Please support the mission of IFESS and the exchange of electrical stimulation education through a Corporate Sponsorship of the 2007 IFESS Conference.

These sponsorship opportunities allow for:

- ◆ *Partnership* with the program committee for the 12<sup>th</sup> Annual International FES Society Conference
- ◆ *Recognition* as a leading supporter of electrical stimulation education and the international exchange of information through the 12<sup>th</sup> Annual International FES Society Conference
- ◆ *Advancement* in research, application, and understanding of electrical stimulation as it is utilized in the field of medicine
